## BUILT-IN COOKTOP 36" INDUCTION

### AVAILABLE COLORS

### SIGNATURE FEATURES

#### Amazingly Fast

Get amazingly fast heat with induction that boils water 50% faster than an electric cooktop.<sup>1</sup>

#### Even Heat

Whip up delicious meals with induction that delivers incredibly even heat across the surface of the pan so you get golden results every time.

#### Easy To Clean

Don't stress over spills with induction's easy-to-clean surface that generates heat only to your pan, not your cooktop, meaning spills can't burn onto the surface.

#### Auto Sizing™ Pan Detection

Make fluffy pancakes with ease using Auto Sizing™ Pan Detection that automatically senses the size of your pan to only send heat to whatever small, medium, or large pan you are using.

### PRODUCT DIMENSIONS

Width	36-3/4"
Depth	21-1/2"
Height	4-3/8"

### MORE EASY-TO-USE FEATURES

#### True Temperature Melt & Hold

Get perfectly melted goodness with True Temperature Melt & Hold that delivers low, precise heat for melting delicate ingredients or sauces without scorching or burning for up to one hour.

#### Temperature Precision

Sear steaks, crisp sandwiches, melt chocolate, or simmer sauces with the precise temperature control of induction.

#### Safe Surface

The Safe Surface — Induction only heats pans and the food in them: the area around the pans stays cool to the touch.

#### Energy Efficiency

Since induction only heats your cookware and not your kitchen, less energy is lost throughout the cooking process.

#### Cooktop Timer

Use the built-in timer function to set a specified amount of time you want items to cook.

#### Cookware Compatibility

Most stainless steel and cast iron cookware is compatible with induction elements. An easy rule of thumb: if a magnet sticks to the bottom of the cookware, it's induction-friendly.
