IN CASE OF DEFECT

Any products covered by this warranty reported to an authorized FABRITEC retailer as being defective will be repaired or replaced (with a product of equal value) at the discretion of FABRITEC if it determines that the defect is the result of a material or manufacturing defect covered by this warranty. The warranty shall be limited by the following restrictions and conditions:

The repair or replacement of defective warranty products are contingent upon the current product offering of styles and construction options at the time of the warranty claim. If a warranty claim is filed after a FABRITEC product becomes discontinued or suspended from production, FABRITEC reserves the right to honor the warranty in one of the following fashions, at its sole and exclusive option :

- (1) To replace the affected component with a new component of the same style or equivalent.
- (2) To replace the affected component with any other component in the residential line to achieve a uniform appearance with a similar and comparable product of the originally purchased style. If components are replaced, FABRITEC cannot guarantee that the finish of these replacements will match exactly the finish and appearance of the components in the residential line. This is due to changes that occur during the wood's natural aging process, affecting its color and grain.

EXCLUSIONS

- This warranty will apply only if the upkeep and maintenance of the products under warranty are maintained with products specifically designed to clean the different type of cabinetry materials, since the use of any other product could alter and damage the finish. The Purchaser shall follow the directions in "Taking Care of Your EUROSTYLE" section.
- This warranty will not apply if the products under warranty have been moved from their original location, modified or repaired by anyone other than FABRITEC certified dealers and installers.
- This warranty will not apply to repairs required due to incorrect installation, breakage or any damages caused by water, fault, carelessness, abuse, misuse, misapplication, alteration or modification of the products under warranty, as well as chemical or natural corrosion, accident, fire, flood, moisture, acts of God or any other casualty.
- This warranty does not cover discoloration of the products under warranty caused by exposure to the sun, insufficient ventilation, or excessive heat. All wood products are subject to shrinkage or expansion as a result of changes in humidity conditions. FABRITEC shall not be liable for claims that are deemed to be a result of normal atmospheric changes (such as normal expansion and contraction of joints or appearance of a white line effect caused by the contraction of a finished panel). FABRITEC will not warrant products that are subject to excessively humid environments. Normal household humidity conditions should range from 20% to 50%.

PARTICULARITIES

- Wood doors are manufactured from a natural resource which is subject to variations in graining, color, mineral and markings inherent to each wood species. FABRITEC will not be responsible for variations in wood grain, color shades in the natural wood used or for slight differences in color or texture of the material. All wood darkens with age. These color changes are more evident on cabinetry with light wood stains. These color variations will occur from door to door and even between the components of the same door. Door color will also change with various types of room lighting, or with the reflection of colored surfaces such as countertops, walls and floors. Such variations will not be considered a material defect in workmanship.
