

## A&A Surfaces SPC FLOATING LVT Care and Maintenance

### **Maintenance:**

Dust-mop or broom can be used for daily maintenance. When necessary, clean with a MOIST cloth or mop and a neutral PH cleaner – heavy use of detergent cleaners will leave a residue and, over time, lead to a cloudy film.

**NEVER USE** floor polish or floor cleaning wax, oil soaps, etc. These products can damage and/or leave a film on the flooring. This is not a defect in the floor.

### **TIPS:**

- Always use felt tip protectors on all furniture legs/feet
- Entryway/walk off mats are recommended

### **Warning:**

- Never use rubber protective mats. - Area rugs are recommended
- Keep pet nails trimmed
- Sharp shoe-heels (e.g. high-heels) may dent the floors - Never slide furniture across a floor without pads
- Keep floors clean

Note - The suggestions mentioned above are for general practice. In case of a particular project, it is recommended that a professional installer/fabricator/restorer is consulted. It is also recommend that cleaning solutions are tried in an isolated area to check for desired results. A&A Surfaces disclaims any liability towards the use of any care & maintenance products.
