**DECKFAST® Fascia System**  
Fascia Tool and Fascia Screws

Vendor #:  
70001035

Effective  
March 2022

**For Product Installation Always Use a Standard Drill and Not an Impact Drill**

**Fascia Tool**

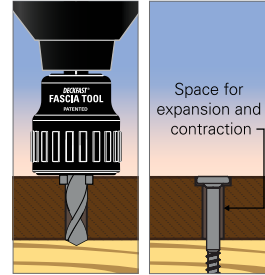

*Creates an over-sized hole so that the board can expand and contract freely without applying significant force to the screw. The Trex® recommended method for fascia installation.*

For use with DECKFAST® Fascia System Screws

Free-spinning stop collar  
Perfect hole and depth every time  
No surface damage

- 1 Pre-drill with Fascia Tool
- 2 Drive Fascia Screw

Article Number  
**1001342321**

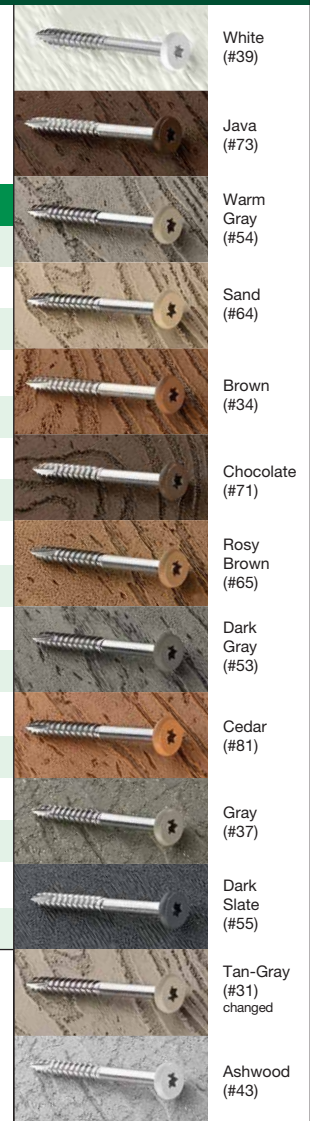

**Fascia Screws**

*Available in a variety of colours to match Trex® deck boards. Trex® colour matching as per chart below. The Trex® recommended method for fascia installation.*

*For best performance pre-drilling is recommended.*

100 screws per pack. T-20 Star Drive (bit included). For use with Fascia Tool.  
#9 x 1 7/8"

**Système DECKFAST® pour planche de bordure**  
Outil et vis pour planche de bordure

**En vigueur**  
**Mars 2022**

**Outil pour planche de bordure**

*L'outil de pré-perçage crée un trou surdimensionné pour la vis de planche de bordure, de sorte que la planche de bordure soit suspendue à la vis et puisse se dilater et se contracter sans exercer une force excessive sur la fixation. Le système pour planche de bordure a été évalué et approuvé pour une utilisation par les principaux fabricants de terrasses, y compris Trex®. Doit être utilisé avec le système de vis pour planche de bordure DECKFAST®. Le collier d'arrêt tourne librement du foret. Profondeur et ajustement parfait. Aucun dommage à la surface.*

**Vis pour planche de bordure**
